Peer Evaluation Form for Team Work [Private Page]

Team name: Ctrl - Alt - Elite_____

Due Date: With Final Individual Component Submission

(Student to upload this evaluation to Canvas)

Write the name of each of your team members in a separate column. For each person, indicate the extent to which you agree with the statement on the left, using a scale of 1-4

1. *strongly disagree*
2. *disagree*
3. *agree*
4. *strongly agree*

Total the numbers in each column.

Evaluation Criteria	Team member:[Javeria and id]
Attends team meetings regularly and arrives on time.	4.
Contributes meaningfully to team discussions.	4.
Completes team assignments on time.	4.
Prepares work in a quality manner.	4.
Demonstrates a cooperative and supportive attitude.	4.
Contributes significantly to the success of the project.	4.
Overall Contribution.	4
Team Member Total.	28

Student name: Caleb Buckley, id: 22174510, Signature: 

Note: the simplest option will be to fill in the sheet, and upload the site or a pdf of this page to Blackboard when completed.

As this is a static site without security features, it is not automated at this stage.[But usefully shows the limits of technology too]

Ethical Reflections

When in the wrong hands, government surveillance poses a great risk to an individuals' privacy. There is little to no restriction on what information the government may decide to collect and as such can become a violation of our rights. However, as evident in our 'choices' there comes many great benefits which we argue overcome the risks associated with data surveillance.

Overall, the prevention of crime, control of disease and the lives saved, are evidently much more important than the privacy violations that occur during surveillance. And although the chances of data leaks are extraordinarily high (particularly in this day in age), would you really consider your credit card details more important than a potential extremist attack bound to take lives?

This team project strengthened my collaboration abilities, and particularly my research skills as I was acting as the lead researcher. I learnt correct APA referencing standards and made some improvements on my website development skills. Our topic focus gave some interesting facts about the volume of data that is collected, and the controversial importance of data surveillance.
